

THE AMERICAN STATISTICAL ASSOCIATION STATISTICS IN IMAGING SECTION

2017 STUDENT PAPER COMPETITION

The Statistics in Imaging Section of the ASA cordially invites submissions for a student paper competition for research on statistical methods, theory or software development for the analysis of imaging data. The selected winners will receive a certificate and present their papers in a topic-contributed session at the Joint Statistical Meetings, July 29-August 3, 2017, in Baltimore, MD. The first place winner and a number of runners-up will also receive a cash prize of \$1,000 and \$500, respectively.

Eligibility

To be eligible, the student must satisfy the following criteria:

- Be a degree candidate at an accredited institution in any term during 2016.
- Be a current member of the Statistics in Imaging Section of the ASA and be able to present the paper at the 2017 JSM.
- Be the first author of the paper. The paper must not be published or accepted for publication at the time of submission.

Application materials:

The deadline for application is December 15, 2016. Formal application should be sent to Statistics in Imaging Section 2016 Program Chair-Elect, Dr. Lexin Li, at lexinli@berkeley.edu with the following attachments in **PDF** format:

- The applicant's Curriculum Vitae;
- An unblinded version of the manuscript with no more than 25 pages, including the abstract, figures, tables and references;
- A blinded version of the manuscript;
- A letter from a faculty member familiar with the student's work. The faculty letter must include a verification of the applicant's student status and, in the case of joint authorship, should indicate what is the contribution of the applicant to the paper.

Selection Process

The award committee will review the papers, and winners will be notified by January 15, 2017. Students may submit papers to no more than two ASA sections and may accept only one section's award. Students must inform both sections they applied to immediately when he or she wins and accepts an award, thereby removing the student from the award competition for the other section. Additional important information on the competition can be accessed on ASA's Student Paper Competition website.

Please send questions regarding the student paper competition to Dr. Lexin Li at lexinli@berkeley.edu.
