## SECTION MEMBERSHIP (FIRST THREE SECTIONS ARE FREE!!!)

The ASA sponsors sections organized on the basis of professional interest to further the development of statistics in specialized fields. Members may choose to participate in one or more of these sections and will be able to vote in the annual election of officers for the section they have chosen. Section changes must be designated prior to December for eligibility to vote in section elections. Please indicate section membership(s) desired by checking one or more boxes below and entering the total section dues amount in the appropriate portion of the form. If there is no special student rate, then all members pay the regular rate. As an incentive, each member may choose three sections of interest (excluding joint sections) and pay no dues for their first year of membership to those sections.
