

ASA 2010 PERIODICALS ORDER FORM

LIBRARY AND INSTITUTIONAL RATES

Mail to: **ASA, Department 79081, Baltimore, MD 21279-0081 USA** Fax to: **(703) 684-2037**
 For more information, call (888) 231-3473, email asainfo@amstat.org, or visit us at www.amstat.org.

PERIODICALS CHECK THE APPROPRIATE BOX FOR YOUR REQUESTED SUBSCRIPTIONS.

The ASA has a Full Time Equivalent (FTE)* tiered pricing structure based on each subscribing organization's Carnegie classification. To subscribe, check the publications below that you would like to receive, indicate the quantity of the each title, and circle the appropriate tier. If you have questions or need assistance determining your tier, please contact Subscriptions@amstat.org. For a complete description of our publications, please see back of order form.

Find your tier at www.carnegiefoundation.org/classifications.

DESCRIPTIONS

Journal of the American Statistical Association (JASA)—Established 1888. Published quarterly. Considered the premier journal of statistical science. *JASA* was the most-cited mathematical sciences journal in the world from 1994–2004, with 50% more citations than any other journal. *JASA* focuses on statistical applications, theory, and methods in economic, social, physical, engineering, and health sciences and on new methods of statistical education. Important books contributing to statistical advancement also are reviewed.

The American Statistician (TAS)—Established 1947. Published quarterly. Contains timely articles organized into the following sections: Statistical Practice, General, Teacher's Corner, History Corner, Interdisciplinary, Statistical Computing and Graphics, Reviews of Books and Teaching Materials, and Letters to the Editor.

Amstat News—Established 1974. Published monthly. This is the membership magazine of the American Statistical Association, with news and notices about the ASA and its chapters, sections, and members. Other features include announcements, a calendar of upcoming meetings, and notices of employment opportunities. Every September, a special issue focuses on careers in statistics.

CHANCE—Established 1988. Published quarterly. Focuses on the use of statistics in everyday life and is for everyone with an interest in the analysis of data. It features articles that showcase the use of statistical methods and ideas in the social, biological, physical, and medical sciences. *CHANCE* keeps its readers informed about developments and ideas in a variety of areas, including government statistics and sports. The goal of this magazine is to promote the field of statistics and make its contributions accessible to a broad audience.

Journal of Business & Economic Statistics (JBES)—Established 1983. Published quarterly. Serves as a unique meeting place for applied economists, econometricians, and statisticians developing appropriate empirical methodologies for a broad range of topics in business and economics. *JBES* is consistently ranked among the top 10 of all economics journals. Coverage includes forecasting, data quality, and policy evaluation.

Journal of Computational and Graphical Statistics (JCGS)—Established 1992. Published quarterly. Works to improve and extend the use of computational and graphical methods in statistics and data analysis. *JCGS* contains cutting-edge research, data, and surveys on numerical methods, graphical displays and methods, and perception. Articles are written for readers who have a strong background in statistics, but are not necessarily experts in computing. Designed to improve and extend the use of computational and graphical methods in statistics and data analysis. Joint publication with the Institute of Mathematical Statistics and the Interface Foundation of North America.

Statistics in Biopharmaceutical Research (SBR)—Publishes articles that focus on the needs of researchers and applied statisticians in biopharmaceutical industries; academic biostatisticians from schools of medicine, veterinary medicine, public health, and pharmacy; statisticians and quantitative analysts working in regulatory agencies (e.g., U.S. Food and Drug Administration and its counterpart in other countries); statisticians with an interest in adopting methodology presented in this journal to their own fields; and nonstatisticians with an interest in applying statistical methods to biopharmaceutical problems.

Technometrics (TECH)—Established 1959. Published quarterly. Contributes to the development and use of statistical methods in the physical, chemical, and engineering sciences and features papers that describe new statistical techniques; illustrate innovative application of known statistical methods; or review methods, issues, or philosophy in a particular area of statistics or science. *TECH* emphasizes new statistical approaches to screening, modeling, pattern characterization, and change detection that take advantage of massive computing capabilities. Joint publication with the American Society for Quality.
