The presenters will overview research opportunities at NSF and NIH, at a level geared towards early career researchers. Judy Wang will provide the NSF perspective based on her time as an NSF Statistics Program Officer. Karen Messer, a former member of the ASA Committee on Funded Research, has been asked to speak based on her time as chair of the Biomedical Methods and Research Design (BMRD) study section at NIH.

More information on funding opportunities in general are available at www.amstat.org/ASA/Your-Career/External-Funding-Sources.aspx.
