Go to the [JSM 2015 online schedule](#) to view the complete list of invited sessions and read session abstracts.

Currently, the JSM 2015 Program Committee is accepting abstracts for contributed paper, poster and speed presentations as well as topic-contributed and roundtable presentations. The deadline for submissions is February 2. [Click here](#) for more information about session guidelines and the abstract submission process.

All JSM 2015 technical, scientific or policy sessions will be finalized and posted by the end of March and the complete program, with business and committee meetings, will be available online by June 1.

About JSM 2015

JSM, which has been held annually since 1974, will be conducted jointly in 2015 by the [American Statistical Association](#), [International Biometric Society \(ENAR and WNAR\)](#), [Institute of Mathematical Statistics](#), [Statistical Society of Canada](#), [International Chinese Statistical Association](#), [International Indian Statistical Association](#), [Korean International Statistical Society](#), [International Society for Bayesian Analysis](#), [Royal Statistical Society](#), and [International Statistical Institute](#). JSM activities include oral presentations, panel sessions, poster presentations, continuing professional development courses, an exhibit hall, a career-placement service, society and section business meetings, committee meetings, social activities and networking opportunities. More than 6,000 statisticians will attend the conference. Event registration and hotel reservations open April 30. [Click here for more information about JSM 2015.](#)

About the American Statistical Association

The American Statistical Association is the world's largest community of statisticians and the second-oldest continuously operating professional society in the United States. Its members serve in industry, government and academia in more than 90 countries, advancing research and promoting sound statistical practice to inform public policy and improve human welfare. For additional information about the American Statistical Association, please visit the ASA website at www.amstat.org.
