

LinkedIn Post – June 15, 2026

Colleagues,

You are likely already aware of the massive changes proposed by the Office of Management and Budget (OMB) to 2 CFR Part 200. This rule, also referred to as the “Uniform Guidance,” addresses how recipients of federal financial grants and support may use those funds.

ASA will submit comments on the rule, but organizations and individuals must do so as well. An [outstanding blog](#) by Darla P. Henderson, PhD, will make clear why the research community and those who are impacted by research - that is, EVERYBODY - is affected by the proposed changes, and how they can respond. Please take a look at her blog, share it with your networks, and join in submitting comments about the rule. Comments are due by July 13, 2026.
